New Product for Summer 2006 T24 Trailer Rental Prices Starting at \$99 per day.

Cruise America has a new product launch coming up this summer - lightweight Travel Trailers which will sleep a family up to five. Although these Travel Trailers will be built to Cruise America's tough durability standards the total vehicle weight is expected at 4,000 pounds or less . . . and that's including a generator! Most full size cars, SUV's and pick-up trucks with a proper trailer hitch system should be able to pull these 25 foot Travel Trailers (length includes tongue) with no problems!
